

Tier 2 Team Guide to the CICO Getting Started Workbook

While we recommend reading through this workbook since it contains a wealth of information on Check-in, Check-out, for the purpose of today's team time, we recommend following these directions:

STEP

1. Review the Table of Contents, pgs. 5-6
2. Review the purpose of Tier 2 Interventions, page 10 and the defining features of Tier 2 interventions, p.11
How might you use this information with staff?
3. Complete the chart on p. 14, including the team decision under Q. 3
4. Complete the chart on p. 16
5. Read and review pages 19-20 and complete the chart, +as best as possible (put remaining the items on an action plan – you will complete this at the end).

STOP....Check in with each other...how are we doing? Do you have any questions or something you want to talk over with Colleen/Pat or ask the group about?

6. Review p. 24 for elements of data-based decision making systems
7. Read pages 25-26 and complete (as much as you can; otherwise, action plan) the chart on p.27.

STOP....check in as a team, questions for Colleen/Pat or the large group?

8. Turn to page 35-42 and complete the action plan for implementing CICO

Next Step: Share out a summary of your team work with the large group
